DETAILED ACTION

1. Claims 1-11 are in the application.

The reference to the parent application provided in the amendment to the specification is deemed to be inaccurate. This application includes subject matter not present in the original disclosure, in particular all subject matter directed to figures 9 and 10; figures 9 and 10 are deemed to constitute matter not disclosed in the parent application.

For this reason the present application is a Continuation-in-Part of Serial No. 09/951,603. An appropriate correction should be made.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 11 the recitation that the “diffuser plates and **shapes** are made hollow” is not clear. There is no proper antecedent for “the diffuser plates”.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1, 2, 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Jamieson.

Jamieson discloses a marine hull comprising a hull with a bow comprising a plurality of adjacent channels adapted to mix air and water to reduce impact and suction between the hull and water.

Allowable Subject Matter

6. Claims 3, and 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jesús D. Sotelo whose telephone number is 703-308-2563. The examiner can normally be reached on Mon. - Fri. 6:00 AM -2:30 PM.
